

1

ChatGPT Conversations

Natural, multi-round chats that feel truly human.

Talk naturally and enjoy lifelike chats powered by advanced ChatGPT technology. Whether you want to share your thoughts, ask questions, or explore ideas, **OUROBOT listens, understands, and responds with warmth.** Every conversation feels genuine—like you're talking to a real friend who truly gets you.

2

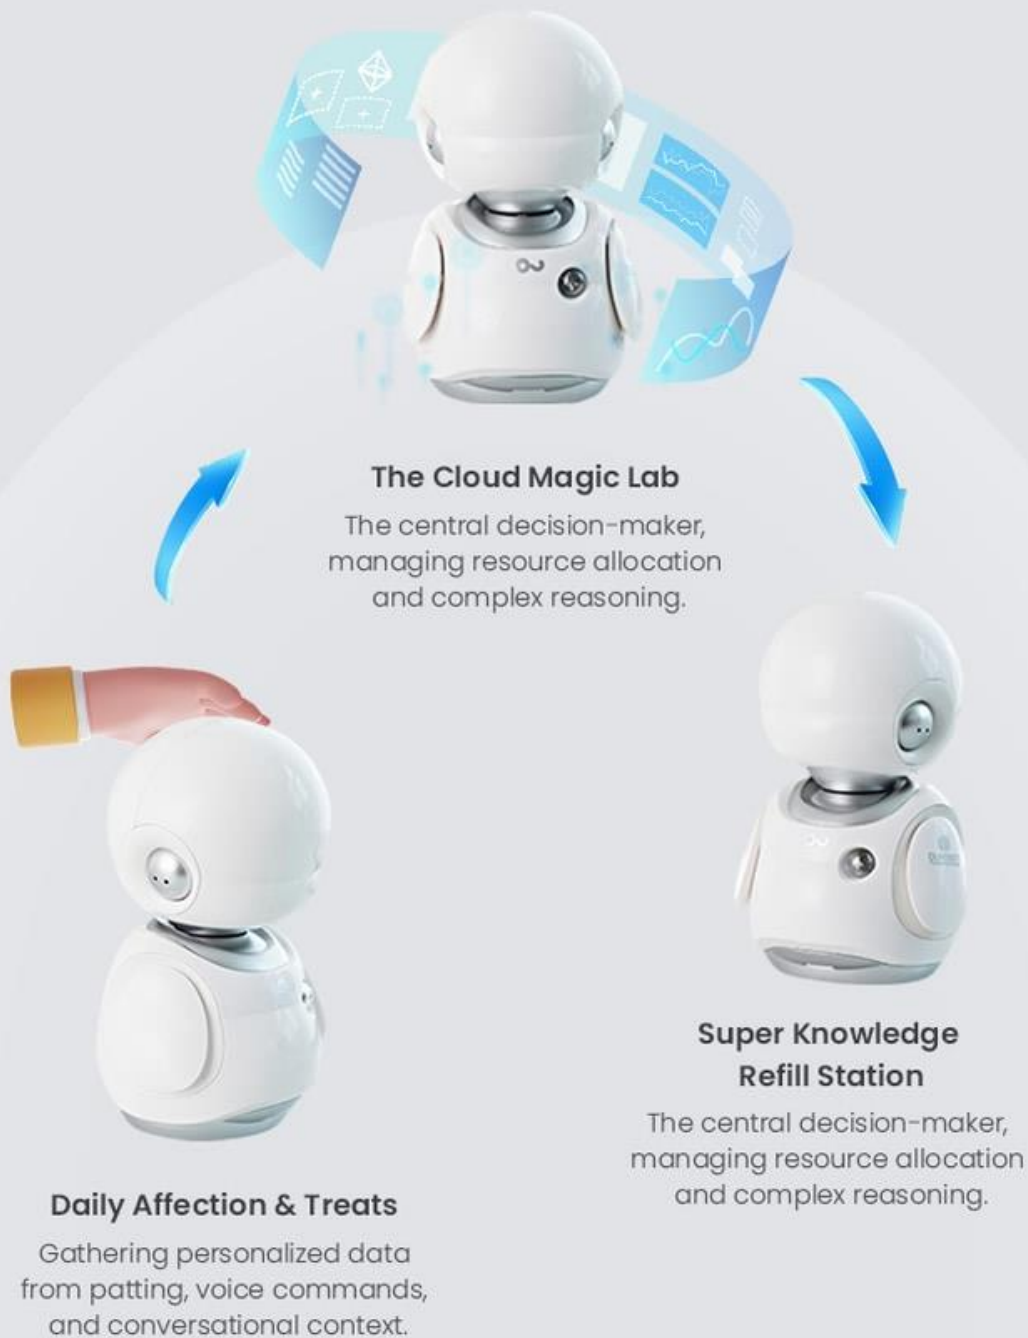

OU-Brain Emotional AI

Understands tone and emotions for deeper connection.

Driven by the OU-Brain system, OUROBOT is more than just responsive — it's a companion you can nurture and grow with. It listens to your voice, senses your touch, and responds through light and expression, forming a living rhythm between you and technology. **Over time, its mood evolves with your interactions — it can be cheerful, calm, or a little moody, just like a real friend.** Through voice, touch, and emotional feedback, OUROBOT becomes a companion that learns your habits, cares for your well-being, and shares in your everyday moments — a bond that deepens the more you connect.

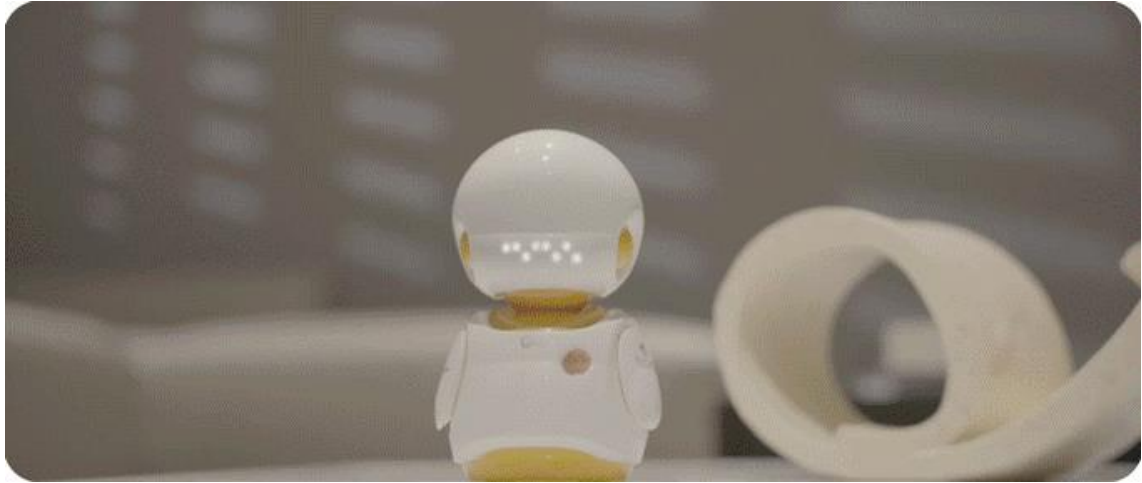

OU-Brain System: Cloud Wisdom

3

Caring Reminders

Sends greetings, rest reminders, and emotional support.

OUROBOT doesn't just listen — **it cares**. With **gentle greetings**, **timely rest reminders**, and **comforting words**, it brings small moments of warmth to your daily routine. Whether you've been working too long or seem a bit down, it's always there to remind you to slow down, smile, and feel cared for.

Feel. Respond. Connect.

Dual-Mode AI

Online or Offline, Always There for You.

Dual-Mode AI: Smart or Playful, Always With You

 Online

Smart & Connected

Full AI search, planning & instant answers.
Knowledge and guidance at your fingertips.

 Offline
