

SDKEBOOST: 700W Brushless Power for Every Bike

We wanted a battery that could go the distance — compact, powerful, and reliable.

That's why **SDKEBOOST** runs on an **18650 ternary lithium battery**, engineered for both endurance and performance.

Charge it once, and ride up to **80 km (50 miles)** on pure electric assist.

From your **daily commute to weekend adventures**, it's power that moves with you.
